NEW ENGLAND MUTUAL
Life Insurance
COMPANY!
OF BOSTON.
INCORPORATED, 1835. ASSETS, $3,000,000.

The only Company on the Pacific Coast governed by the MASSACHUSETTS NON-FORFEITURE LAW.

That there is absolutely no forfeiture in this Company these examples, furnish sufficient proof:

A. C. E. Miller, of Portland, Oregon, insured under Policy No. 11,054, for $5,000, died over six months after the premium was due and unpaid. The $5,000 was promptly paid the widow, less the unpaid premium.

J. W. Jones, of Colusa, Cal., insured under Policy No. 33,016, for $10,000, died over four months after the premium was due and unpaid. The $10,000 was promptly paid the widow, less the unpaid premium.

Is it not an object for you to insure in a Company where your policy is protected by such a wise and equitable law?

☞ This Company is not restricted to investing its funds in Massachusetts. The funds are invested in the best securities, where the largest interest is obtainable. Thus it has been enabled to return as dividends to the policy holders, in cash, during the last four years, $2,466,109 00. Dividends payable annually in cash.

RELIGION vs. PLEASURE.

As Pleasure met Religion by the way,
Religion, with long face, began to scold her;
But Pleasure—merry culprit—only laughed
Full in the face of every stern beholder.
Religion frowned and threatened, threatened frowned,
And promised wrath divine in boundless measure,
Unless she turned from her gay, joyous ways,
Should fall upon the giddy head of Pleasure.
And then she turned and drew a picture fine
Of all the joys that wait for us in heaven;
Quoth Pleasure, "Oh! to wait so long a time
I'd need the patience sure of six or seven."
Religion stared aghast; but Pleasure said,
(The merry elf,) "I seize each sweet reality;
You chase a phantom, mounted on a myth,
Through endless realms of doubtful hospitality.
Your joys are all to come; I seize mine now,
Lest, in the future, treason I discover;
I trust no distant view, however fine—
The future is uncertain as a lover.
But that which has been cannot be undone,
Not Heaven itself me from my past can sever;
So, though your *promised* goal be never won,
I've pleasure *now* and memory *forever*."
Religion strode away, and what she thought
I have no means at present to discover,
But Pleasure clasped within her rosy arms
The light form of her graceful, ardent lover.

ADDRESS
Of the Democratic and Conservative Members of Congress.

Appointment of a Democratic Congressional Campaign Committee, with Senator Casserly as Chairman.

[Dispatch to the *Chicago Times.*]

WASHINGTON, June 24, 1870.

The Democratic Senators and members in Congress at a caucus, held last night, agreed upon an address, which was to-day signed and issued, as follows:

To our Fellow-Citizens of the United States, Friends of Constitutional, Economical and Honest Government: The undersigned beg leave to call your attention to the peculiar importance of the elections which take place this year, and respectfully to submit suggestions for your consideration. By the State Legislatures to be elected nearly one-third of the United States Senate will be chosen. Nearly all the members of the next House of Representatives are to be elected next Fall. Upon the coming elections, then, depends the question whether the Democratic and Conservative elemement in the Senate shall be increased, and whether that element shall have a majority of representatives in the House of Representatives. Also, and as a consequence, whether we shall have constitutional, economical and honest government, or a continuance of revolutionary, extravagant and wasteful partisan rule; whether we shall have general, uniform, just and constitutional legislation, with reasonable taxation and frugal expenditures, or unconstitutional, partial, unjust class-legislation, with oppressive and unequal taxation and wasteful expenditures. That we have strong reasons to hope for a favorable result is plainly apparent.

The elections already held clearly show that the tide of reform has set in with a power that cannot be resisted. No blunders should be committed by the friends of reform. If they do their duty and act wisely, if they throw off all apathy and act with vigor and steadfastness, there is every reason to hope that their efforts will be rewarded by success. Let there be no dissensions about minor matters, no time lost in the discussion of dead events; no manifestations of narrow or proscriptive feeling; no sacrifice of the cause to gratify personal ambition or resentment; and let the best men be chosen for candidates, and we hope to see our country redeemed from misrule.

And in this connection we beg leave to say a word to our fellow-citizens of the Southern States: Do not risk the loss of Senators or Representatives by electing men who cannot take the test oath, or who are under the disability imposed by the Fifteenth Amendment. Whatever may be said as to the validity of that amendment, or of the Test-oath Act, you may rest assurred that Senators elected by the votes of the members of Legislatures who are held by the Radicals to be thus disqualified, will not be allowed to take their seats, and that the members of the House of Representatives thus disqualified will also be excluded. It is the plainest dictate of practical wisdom not to incur any such risks. We hope soon to see the day when all disabilities will be removed, but in the meantime, do not, we entreat you, lose the opportunity to strengten the Democratic and Conservative force in Congress, and the possibility, nay, probability, of obtaining a majority in the next House of Representatives by putting it in the power of our adversaries to overthrow or disregard our election.

[Signed by the members of both Houses.]

At an adjourned caucus, a Congressional Campaign Committee was selected, to consist of two Senators at large, and one Representative from each State represented in the Senate and House by Democratic or Conservative members. This Committee had power given them to appoint a Democratic and Conservative Resident Committee, to consist in part of their own members, together with citizens of the city, to a number that may be hereafter agreed upon. Senator Eugene Casserly, of California, is Chairman of the Committee.

MARTIN VAN BUREN is the only man who ever held the office of President, Vice-President, Minister to England, Governor of his own State, and Member of both Houses of Congress. Thomas H. Benton is the only man who held a seat in the United States Senate for thirty consecutive years. The only instance of father and son in the United States Senate at the same time is that of Henry Dodge, Senator from Wisconsin, and his son, Augustus C. Dodge, Senator from Iowa. General James Shields is the only man who represented two States in the United States Senate. At one time he was Senator from Illinois, and subsequently from Minnesota. John Quincy Adams held positions under the Government during every Administration from that of Wasington to that of Polk, during which he died. He had been Minister to England, Member of Congress, Secretary of State, and President of the United States. He died a Member of the House of Representatives.

LOW POSTAGE.—A bill has passed the U. S. Senate reducing letter postage to two cents.

THE LITTLE COPPER BOX.

I am a cashier, and have been for years, and the story I am about to relate is a true one, and may interest the readers of the *Democrat*.

One morning while seated in the office reading the *Bankers' Gazette*, a man entered. Now several men had given us a call that particular morning, but this one was a strange person, who I knew at once had entered the bank for the first time. He was of medium hight, and well proportioned; his eyes were large and lustrous; but his lips were beautifully chisled, and twitched nervously. A red scar, extending from his left ear to his mouth, gave him a repulsive look.

After glancing around the room he approached the desk. I laid aside the *Gazette* and arose.

This is the Leroy Bank? he said interrogatively.

Yes sir.

Do you take *things* on deposit here? he emphasized the noun strangely.

We take money, I answered.

But 'things,' he said.

Seldom, sir.

Then you have taken them?

Well—yes, I answered, hesitatingly, not liking my visitor's looks. We have kept valuables, such as jewels, wills, etc., in our vaults till called for. But it is not in our line of regular business.

Just so, he replied. I have something, a box, I wish to leave with the bank, you can put it in the vault, and label it left till called for.

I bowed, and upon requesting to see the article he wished to deposit, the man smiled and putting his hand in his bosom he drew it forth.

It was a little copper box, about three inches square. It was highly polished, and nearly covered with tiny, brass-headed nails. I took it in my hands and examined it with intense curiosity. No hinge or keyhole was visible, not even a seam that would have indicated a lid.

Well, said I, finishing my scrutiny, and setting the box on the desk. Well this is what you desire to leave in our care?

Yes, sir. It is not bulky, and will not occupy much room, he answered, smiling faintly.

It is a curious box, said I; perhaps it contains an infernal machine.

Far from it, sir. He was becoming impatient. Will you keep it?

I suppose so. When will you call for it?

Oh, I do not know, he answered. I am going on a long journey, and know not when I will return.

Perhaps never, I said, eyeing him the while.

True, sir teller, for such a position I think you occupy here.

I bowed affirmatively, and said: In the event of your death——

The box will be called for, he finished.

But how will I know the person calling for it should have it?

Oh, easily; write me a receipt, and the person presenting it will get the box.

I drew a blank sheet from the desk, and taking the pen wrote the following receipt:

NEW YORK, May, 18, 18—.

Received this day, of——, a small copper box, to be left in the vault until called for. JOHN HOWARD,
Teller, Leroy Bank.

With a flourish I made a small mark on the receipt, so I could identify it when presented.

Now then sign your name in that blank there.

He seized the pen, and in a bold chirography wrote a name: Lionel Vascini.

An Italian?

Aye. And now, he continued, twisting his grizzled mustache, I will go. Take care of the little box, though it may not be called for in twenty years, and picking up the receipt and bowing he left.

For a minute after his footsteps ceased on the pavement, I found myself gazing at the box, which I was turning over and over in my hands. Where was the lid? My curiosity was raised to its highest pitch, and I tried to pry into the little metal stranger confided to my care. With my knife I hammered the eight corners, but no lid flew open; then I struck many of the small brass nails, but still no lid revealed itself.

Finding it impossible to open the box, I tried to conjecture with certainty what it contained. In the midst of my study the bank president entered.

Hello, Howard! he shouted, what have you found?

Look, and I placed the box in his hands.

He examined it as I had, and handing it back asked where I got it. I told him all—of my visitor, what he had said, etc. He listened attentively, and as I concluded, said:

Yes, sir, put it in the vault, in the middle safe; and when it is called for, mind, I want to see the claimant.

Away I went to the strong vault, hugging the small box as though invisible thieves were watching a chance to deprive me of it. I unlocked the largest safe, a massive one indeed, placed the box in one of its innermost apartments, relocked it, and left the vault.

Well, reader, days, and months, and years passed away; summer gave place to autumn, autumn to winter, year after year and still the little copper box was an occupant of the strong safe. No claimant came. Closely I scrutinized every one that entered the bank, hoping it might be he of the scar; but he came not. Every day I went to the vault and took a peep at the box, and the President would jokingly remark:

Howard, if you wish, I will get a larger safe, and let you sleep in it, with that confounded copper box for a bedfellow.

Thus twenty years were numbered with the past, and changes have been made in the Leroy Bank. The cashier had died, taken his own life, and I was now at his desk. Marville, the President of twenty years ago, still retained his position, though in his seventieth year. The twenty years left their mark behind, my cheeks were growing furrowed, and my hair, once dark as night, was now grey.

Still that little box remained in the vault, and I had long since given up all hopes of seeing it claimed.

One day Marville entered huriedly, and throwing his gold spectacles on the desk, exclaimed:

John, I have seen Lionel Vascini!

I sprang to my feet—Lionel Vascini! I remembered the name. I believe that not a day had passed, during those twenty long years, that I had not repeated that name a score of times—Lionel Vascini, the man of the copper box.

Lionel Vascini? I shouted.

Yes, sir; it is he, replied old Marville! The same grizzled mustache, the same grey eyes, and identical red scar.

Where is he?

At the Morgue.

Dead?

Dead!

I grasped my hat and hurried from the bank in the direction of the morgue. I entered among the dead. I glanced at them and passed on. Here lay a girl, her features beautiful in health; there a young man, whose bloated face told that he had been in the water. Suddenly I paused—before me lay a man, the cold water from above falling upon him. One look satisfied me. It was Lionel Vascini.

Poor fellow, said I, he will never claim the box; and I turned to my guide, and nodding toward the body said:

How did he die?

He was seen to jump from the pier last night, and when he was fished out he was dead.

His clothes—I would see them.

The clothes of the deceased man were handed to me. I searched them. In a pocket, I found a comb, a knife, and purse. Into the latter article I looked, expecting to find the receipt I had written twenty years ago, but it was not there.

Do you recognize the body? asked the man.

Oh, yes; 'tis Lionel Vascini, an Italian, I will send a coffin for it to-night.

I left the horrid dead-house, and returned to the bank.

Well, said Marville, as I entered.

I have seen him.

Now, then, what shall we do with the box?.

Just as you say, John, said he again; I have nothing to do with it; but if I had I would force the thing open and see what it contains.

Curiosity often tempts me to do so; but my word is given, I will keep the box unopened till my death, should it remain unclaimed till that time.

The President smiled and walked away.

A stormy day eight months after I had found Vascini in the morgue, a man of about thirty years of age, entered the bank and bowed respectfully.

You are the teller, sir?

No sir, the Cashier.

Where is Mr. Howard, the teller.

Here; You behold him in position of cashier, I replied.

You were teller nearly twenty-one years ago?

Yes, sir.

Then I have business with you. Here? and he drew from his pocket a folded paper, and handed it to me.

I unfolded it, and started. I saw a name never to be erased from my memory—Lionel Vascini. I had recognized my own receipt.

Is that satisfactory? asked the man, as I looked up.

Yes, sir, entirely so.

I stepped to Marville's room, called him in while I proceeded to the vault. Returning with the little box I laid it on the desk.

Ah! that is it, though I behold it for the first time! he exclaimed, and he drew forth his knife and a letter.

He opened the letter, and read aloud; The twelfth nail from the southeast corner. He took the box, and struck the nail designated with his knife, but no lid opened.

Turn the box over, said Marville.

The man did so, struck as before, and lo! with the noise like that of a percussion cap, a lid flew open.

Eagerly we bent forward to see the contents of the little box, which had not seen the light for so many years.

What a dazzling sight met our gaze! The box was filled with diamonds of the first water. We uttered an exclamation of astonishment, but the man silently regarded the treasure.

Gentlemen, said he at last, I thank you for guarding this box for so many years, and I pray you to accept these as your reward, and before we could utter a syllable, he took from the box two of the largest diamonds and handed them to us.

But really——, began Marville.

No excuses, said the man, impatiently. In giving you these I but fulfill my father's last request.

Lionel Viscini was your father then?

Yes, sir, I was in Italy when he died, committed suicide, you know. Well he wrote to me a few hours before he committed the rash act, inclosing the receipt.

But allow me to ask, said Marville, from whence came those diamonds?

That I cannot reveal, and the lid closed with a snap. "So good day," and he was gone, while Marville and I stood bewildered, gazing a moment at our diamonds, then at the door through which the son of Lionel Viscini had walked with untold wealth.

We weighed our diamonds; mine weighed thirty-one carats. Marville's thirty-four. I still possess my diamond. It is of a rich sky-blue color. Marville has died, but I know not what became of his diamond, as he departed this life intestate.

Since that stormy day, I have not seen the little copper box, or its possessor.

THE OLIVE CROP.—The olive crop of this county, says the Santa Barbara *Press*, promises to be by far the largest ever raised. The trees are loaded with blossoms and young fruit and are growing very thriftily, while many hundreds are coming into bearing this year from the cuttings but recently set out. This may be said in favor of the olive, and almond likewise, that it is a never failing crop. In a very few years we shall begin to ship the products of these trees, the olive, and almond, in quantities which will relieve the constant draft upon the currency of the community.

"WHAT vegetables will your Excellency have for dinner?" said the Chief Steward of the White House to the President the other day. "Vegetables," replied the President; "well, suppose we have cheroots." "They are all used up, your Excellency, but we have potatoes, parsley, onions, tomatoes, asparagus, beets, spring chickens, strawberries——" "Stop, stop, stop!" exclaimed his Excellency, "let us have peas!" And this is said to be General Grant's first, last, and only joke.

THE latest "sweet pretty" thing we have seen is this: "As the unseen violet betrays itself by its odor, so will love, however carefully concealed, discover itself by impalpable emanations from the heart that forms its arbor." The "arbor" part is especially fine and appropriate.

WORKINGMEN'S SONG.

BY HENRY CLAY PREUSS.

Whom do we call our heroes?
To whom our praises sing?
The pampered child of fortune,
The titled Lord, or King?—
They live by others' labor,
Take all and nothing give:
The noblest types of manhood
Are they who work to live.
Then honor to our workingmen,
The hardy sons of toil,
The heroes of the workshop
The monarchs of the soil.

Who spans the earth with iron?
Who rears the palace dome?
Who creates for the rich man
The comforts of his home?
It is the patient toiler:
All honor to him, then;
The true wealth of a nation
Is in her working men.

For many barren ages
Earth hid her treasures deep,
And all her giant forces
Seemed bound as in a sleep;
Then Labor's anvil chorus
Broke on the startled air,
And lo! the earth in rapture
Laid all her riches bare.

'Tis toil that over nature
Gives man his proud control;
It purifies and hallows
The temple of his soul;
It scatters foul diseases,
With all their ghastly train;
Puts iron in the muscle,
And crystal in the brain.

THE CHINESE QUESTION.

Large Meeting of the Workingmen in San Francisco.

One of the largest meetings ever held in San Francisco, says the *Reporter*, took place on Friday night. Not only the Knights of St. Crispin, but the entire working classes of the city were represented. Mr. Maurice C. Carey, the President, in opening the proceedings, remarked that the Workingmen of California were determined to get rid of the Mongolians, and that the meeting had no political or party object. The coolie system was propped up by an apostate citizen and renegade statesman, and was nurtured by the trading, prating politicians of the hour.

The following resolutions were read and adopted:

WHEREAS, The employment of Chinese labor in the shoe and boot making business and other trades in this city, has already reduced the wages of such trades fifty per cent., and thereby driven out of employment many of our number; and whereas, the employment of Chinese in our trades is rapidly increasing, and, in spite of our protests, no attempt is made to put a stop to such immigration, but, on the contrary, the very means of the people are used to encourage the importation of Chinese, by paying large subsidies to the steamers that bring them here; and, whereas, the Chinese question has become a national one, and our fellow workingmen in the Eastern States are already threatened by the same competition that is depriving us of bread; therefore, be it

Resolved, By the mechanics and laboring men of San Francisco, here assembled, that we declare our determination to prevent this cruel and monstrous competition that is now driving us and our families to starvation, by any and all means in our power; and that we call upon our fellow workmen throughout the United States to stand with us in this common danger, and to make of it a question on which there shall be no equivocation or subterfuge.

Resolved, That we demand of the Government of the United States the stoppage of payments now being made to Chinese steamers, and that we insist upon the abrogation of the treaty with China, and the passage of a law prohibiting Mongolians coming to this country, except for commercial purposes.

Resolved, That for the better management of our opposition to Chinese competition, we are in favor of a Convention of the mechanics and other laboring men of this city.

Resolved, That all labor associations in the city are requested to take immediate steps in favor of such a Convention.

Resolved, That the Mechanics' State Council be requested to call such a Convention, to meet at an early day, and that they fix the ratio of representation for associations.

Another resolution was adopted, condemning Messrs. Canavan, Winkle and Story, of the Board of Supervisors, for making a report adverse to the granting of aid to the Mechanics' Labor Exchange.

General Winn said the people had assembled to complain of their rulers, who were neither representing their interests nor legislating for their benefit; that a treaty had been made with China whereby four hundred millions of Chinese were permitted to come among forty millions of Americans, to spy out our land and enjoy its blessings, to the injury of our people and the ruin of our country. About six years ago the manufacturing of boots and shoes was commenced in this city; now there were about six hundred white men and women engaged in that business. The men earn from three to four dollars a day, the women from nine to twelve dollars a week. Some of the leading manufacturers are now preparing to supplant white labor by giving employment to Chinamen, whom they can get at one dollar a day. They are being assisted by a few evil-minded, selfish white men, who, by their course, will soon deprive themselves of employment, as well as those they seek to drive out of the trade, and then white men will only have a choice between working for Chinamen's wages or leaving the city. I am informed that some five hundred Chinamen are employed at the better class of shoe and boot manufacturing in this city, and about five hundred more at slipper making, furnishing the whole coast with that article. They have no families, and therefore number no more than one thousand in population. There were about 600 Crispins here—now about 500. Three hundred of these have families, averaging five in each, making a population of 1,700. The competition with Chinamen will soon drive them away. There are a number of Co-operative Companies now struggling for an existence. They, too, will be driven out by the curse of the country. They cannot live on Chinamen's wages, nor will they, if they can help it. It is that which has brought us together. The inequality of privileges is very great. We permit them to come here and live like hogs in a pen, breeding filthy diseases that good police regulations would not permit among our own citizens. We let them cultivate our soil, catch our fish, kill our game, dig our gold, and enjoy every blessing secured to ourselves. They can travel on our boats, on our railroads, in our stages, from one end of the continent to the other, without danger of molestation; and if a wild boy or a drunken man, for some wrong, real or imaginary, makes an attack upon them, the press invokes the strong arm of the law for the protection of the innocents, while the same thing among our own people passes unnoticed and uncared for. On the other hand, if our people go into the interior of China, they are constantly in danger of being slain by the murderous wretches, paid for the crimes by the "wise men" of the country, who pay, in cash, forty thousand for killing a foreigner, one hundred thousand for burning a steamer, four thousand for killing a Chinaman that favors a white man, forty thousand for destroying property rented to foreigners, and if a Chinaman is killed in his struggle to take the life or destroy the property of a foreigner, his family gets three hundred thousand.

At first many of our China-loving philanthropists laughed at the idea of such horrors in China, but now comes by telegraph the culmination of what was deemed to be mere threats on their part. On the 21st of June a Chinese mob in Pekin murdered the French Secretary of Legation, a number of Russians, Priests and Sisters of Mercy, and burned the Cathedral. These are the humble, docile and harmless creatures over whom so many of our people are shedding crocodile tears, and invoking the strong arm of the law for their protection. Such are published facts, and such facts have not been denied by the press that favors Chinese immigration. And, with such facts staring us in the face, our Government is paying an immense subsidy to the steamship line that is now bringing thousands to our shores to compete with American laborers and American mechanics. We have met here to protest against this great wrong, and to raise our voices against its continuation.

The General alluded to the reconsideration by the Senate of their vote to strike the word "white" out of the naturalization laws, and said the reason was that the people were rising in their might, and Senators feel that they have constituents who must be heard, even in the halls of Congress.

After Gen. Winn had closed his remarks, Messrs. Henry George, Chas. A. sumner and Philip A. Roach made speeches to the vast throng assembled to demand justice at the hands of the Government. We hope this is but the beginning of a popular wave of indignation that will drive out the pests from among us and prevent others from landing on our shores.

Eighteen Indians Carried Over Yellowstone Falls.

A correspondent of the Helena (Montana) *Herald* thus describes a thrilling scene on the Yellowstone river: After nearly three hours' sharp riding we came upon the band, and in such a manner as to cause us some surprise, about midway in the stream where could be seen a hastily constructed raft, composed of drift wood joined together by thongs made of buckskin and buffalo robes. Upon this strange craft were seen in the centre thirteen braves, while five squaws essayed to paddle the unweildy craft to the opposite shore, with pieces of bark as substitutes for paddles. Our pack-horses were in the river, as also were the Indian ponies. This strange sight bursting upon our view rendered us, for the time being, incapable of action. At a glance we could see that they were gradually going down stream, despite the efforts of the squaws, and although our senses for the moment forsook us, the sharp crack of a rifle and the yell of a "Sheep eater," told that the equanimity of our Crow guide was well preserved. At this juncture Pierre Bernard shouted out, "For God's, sake, boys, don't murder them; they are bound to go over the falls." We looked, and a sight met our gaze which was fearfully impressive. The raft having been caught in an eddy, not a vestage of it was to be seen, it having sunk several inches below the surface, and the Indians seemed to be like so many weird spirits floating on the rushing waters. One of the Indians arose, and bending his bow, shot our Crow through the arm. The shot was returned, and again a yell of pain was heard proceeding from a "Sheep eater." Bernard then told the Crow in his own dialect to stop firing, but he paid no attention to the command. Again he raised his rifle but a lariat skillfully thrown by Pierre held him fast. The scene now presented was one which those who witnessed it will not forget to their dying day. The mid-channel in which they were now swiftly gliding seemed to be clear of obstructions, while on either side jagged rocks peered out from the foaming water. When about fifty yards below where we were standing, an old Indian arose and stood in the centre of the circle of braves. He spoke a few words, turned his face towards the sun, and seemingly bade it farewell; then wrapping his robe around him, he sat down. The squaws immediately flung their pieces of bark into the river, threw themselves on to the submerged raft, and commenced pulling their long tresses, in the meantime screaming and howling more like demons than human beings. Indians seated in the circle shook hands, and then commenced wailing their always mournful death-song. Nearer, nearer they approached the fearful abyss; still not a movement was perceptable on the part of the braves. They sat as immovable statues, and did not quake with fear at the near approach of the King of Terrors. As they shot swiftly down the stream, our party instinctively raised our hats while looking at them, and I doubt if there was one, except the Crow, who did not show signs of visible emotion. How singular, was it not? Before us were our enemies, who but a short time before we would have gladly killed in a fight, but now whose near approach to death touches our very hearts with mingled feelings of tenderness, sorrow and pity. A few moments and wonderful to state, the raft, without losing a single piece, goes intact, with its freight of life, over the awful brink and into the mouth of death. We turn from the spot with indescribable feelings. As we take our last look at the treacherous stream, where eighteen mortals passed from life to death, we discern hovering over the fatal precipice two large eagles, whose screams resound above the noise of the waters. The roar of the cataract and the eagles' screams—what a fit requiem for these departed red children.

IT is reported that James Gordon Bennett, of the *Herald*, is fatally ill; that Greely, of the *Tribune*, is seriously sick; and that Thurlow Weed, formerly of the Albany *Evening Journal*, is fast approaching his end.

THE YOLO DEMOCRAT.

OFFICIAL PAPER.

WOODLAND,

Saturday, July 16th, 1870.

AMERICAN OBLIGATIONS IN EUROPE.—Commissioner Wells says that American obligations outstanding in Europe reach $1,500,000,000.

CHOLERA IN THE SOUTH.—The telegraph reports that Asiatic cholera has made its appearance south of the Ohio River. Definite locality.

DEATH OF ADMIRAL DAHLGREN.—Admiral Dahlgren died of heart disease July the 12th, at Washington Navy Yard, of which he was commandant.

FALL ELECTIONS.—Thirty out of the thirty-eight States will hold their Congressional elections this Fall, sending two hundred and twelve Representatives.

FANTASTICS AT MARE ISLAND.—The officers at Marc Island indulged in a Ghost Party recently, every one who attended being dressed in white, and dancing without uttering a sound.

NATIONAL COMMITTEES. — Senator Wilson is made Chairman of the Republican National Executive Committee; and Samuel J. Randall, of Philadelphia, of the National Democratic Committee.

DOINGS OF THE CELESTIAL PETS.—A couple of Chinamen have been detected in San Francisco in attempting to defraud "The Chartered Bank of India, Australia and China," to the amount of thirty-five thousand dollars.

NOT TILL 1872.—The *Bee* says that the bill to provide for a uniform election of members of Congress, or providing for their election on a given day, does not take effect until 1872, so that we shall have no Congressional election in California until 1871.

STATE AGRICULTURAL FAIR.—The seventeenth annual Fair of the California State Agricultural Society will be held at Sacramento September 12th, and continue to September 17th, inclusive. A sum exceeding $15,000 has been appropriated for premiums.

COPPERS.—The *Bee* says: We hear that parties who have occasion to travel over the Yolo and Sacramento bridge, have sent east for a barrel of one and two cent pieces, for use in paying pedestrians fares thereon, the rate being two cents, and the Company not being able to make change, and refusing to issue tickets.

PREACHING *vs.* PRACTICE. — Ben. Butler, in his oration at Woodstock, Connecticut, said: "It is the highest province of statesmanship, the loftiest duty of patriotism, the hope of freedom, and the promise of the regeneration of nations, to take care that in American labor be neither degraded nor enthralled."

The *Chronicle* says: In the United States generally, the indications are decidedly favorable to the Democratic party. Its members are enthusiastic and aggressive; the Republicans seem divided in their councils and indifferent to results. The reënactment of the odious income tax, continues the *Chronicle*, will disgust many zealous Republicans.

SILK WORMS.—Albert K. Thurler, of Utah, fed in 1869, 5,000 silk worms on Osage orange leaves; the worms made 5,000 cocoons. This year he says he is feeding 10,000 worms in the same way; all are doing well, and he has not found a diseased worm in the lot. The silk is strong and of an excellent quality. These facts appear in the Monthly Report of Agriculture.

FREIGHT.—The following rates for the transportation of grain on the Cal. P. Railroad have been established: From Vaca to Vallejo, $1.75 per ton; from Batavia do. $2.00; from Dixon do $2.25; from Tremont do $2.50; from Woodland, Knight's Landing, Marysville or Sutter, do $3.00. Grain from Vallejo to San Francisco, 75 cents per ton. The rates are from 4 to 5½ cents per ton per mile.

OREGON ELECTION. — The Albany *Democrat* says: The official vote has been received, with the exception of Curry county. The Democratic majorities will stand as follows: Grover, (Governor), 609; Slater, 346; Chadwick, 496; Fleishner, 622; Patterson, 491. The Senate stands: Democrats, 14, Republicans, 8. House: Democrats, 29, Republicans, 19. Democratic majority on joint ballot, 16.

STATE BOARD OF EQUALIZATION.—The State Board of Equalization met in Sacramento on Tuesday last, all the members present, and organized by electing Robert Watt, Chairman, and E. W. Maslin of Grass Valley, Secretary. The Board consists of the following persons: State Controller Robert Watt, J. Russ Smith, of Yolo, and Mr. Angeney, of Santa Clara. After the organization of the Board a plan of action was determined upon and the Board adjourned until Monday next.

THE IGNORANT NEGRO BEFORE THE POOR WHITE MAN.—In Massachusetts 50,000 whites are disfranchised by an educational test, and in Rhode Island 7,000 are disfranchised because they do not own $134 worth of real estate. Both of these States ratified the 15th Amendment, giving negroes the right to vote without making any such tests the requisite to the right of suffrage. Such facts as these require no comment. they show conclusively that the Radical party consider ignorant negroes better than poor white men.

Prospect of War in Europe.

The difficulty of selecting a suitable potentate to occupy the now vacant Spanish throne bids fair to result in war. Prussia having favored a certain Prince selected by Spain, France steps up and threatens war if he be placed on the throne. What right France has to dictate who shall reign in Spain surpasses our comprehension. Not long since a Prussian Prince was thrust upon Mexico at the instance of France, backed up by French troops, and sustained in his imperial position by French soldiers. But even the power of Bonaparte could not save the doomed Maximilian, who had not been chosen by the people as their Sovereign. And if it was right for a German Prince to reign in Mexico, why not in Spain, more especially when the latter expresses her preference in his favor? The ways of Bonaparte are past finding out. He doubtless has some deep laid scheme on foot for further territorial acquisition, which he does not propose to have interfered with. Besides Spain, France and Prussia, all Germany, with England and Russia, are very much excited at the prospect of war and its terrible consequences. Funds, Consols, Stocks and Government Securities fluctuate as the prospects of war vary, for or against, moving as regularly up and down as the thermometer with the changes in the atmosphere. The probability of a European war also has an effect upon the wheat markets of the world, keeping up the prices. To this extent California is benefited. It has been said that the only way to satisfy the French people and also to prevent insubordination in the immense standing army of that country is to have a war occur with some other nation every few years, and it looks as though there was truth in the saying. The latest European telegrams report a somewhat better feeling, with the possibility of continued peace; but the ire of the monarchs has been aroused; they pant for war, and war will probably result.

P. S.—On Friday evening, after the above was in type and part of our edition printed, we received a *Sacramento Daily Record Extra* which states that WAR HAD BEEN DECLARED by the Emperor Napoleon against Prussia—troops were moving "to the Rhine." President Grant has called an extra session of Congress.

The Income Tax.

After all, the odious income tax has only been modified. As it now stands the rate is 2½ per cent., which is a reduction of one-half on the old law. The Government is admitted to have received but trifling revenue from this source even at five per cent. on incomes, and if such was the case the salaries of thousands of officers necessary to enforce and carry out the law will now gobble it all up. The truth of the matter is, that the people are sick of sustaining war measures in time of profound peace; they are tired of being robbed to sustain the army of Radical cormorants, who have for years fattened on the substance and by the sufferance of an outraged people. We have hopes that Congress will yet kill this infamous bill before adjournment. The people—the source of all power in this country—demand its repeal. If Congress dare go contrary to the will of the people, the result will be that better men will take their places—men who will represent the wishes of their constituents.

GERMAN IMMIGRATION.—A meeting of Germans was held in Sacramento on Saturday last with the view to seeing what could be done towards promoting German immigration. We question the necessity and also the policy of urging any class of immigrants to come to California at present unless they are men of sufficient means to start in and do something for themselves and thus help to develop the dormant resources of this great State. For such there is abundant room and a sure competency, and we know of no better class of immigrants than the Germans. How much better would it have been for the State to have made efforts in this direction heretofore, instead of flooding it with the hordes of idol worshipping Chinese now here and who are depriving white men of the means of obtaining a decent living. But for the labor market simply no immigration is needed at present. Immigrants will find out the advantages of California soon enough.

THE WAR AND ONE OF ITS CONSEQUENCES.—The *New Eclectic Magazine*, speaking for the Southern people, shows in the following forcible language the agony and bloody sweat to which that portion of our country is subjected by the military tyrants who control it under the direction of Grant and his co-workers:

"The fangs of the tiger war entered deeply into the flesh of the people. We were torn and mangled, but we were not degraded. But now comes a cold-blooded monster which 'fastens itself upon us with a thousand voracious mouths;' which 'draws us to itself and into itself;' which steadily drains our strength, our blood, our life; and 'impotent, paralyzed, with every joint fettered, every limb glued fast, we feel ourselves slowly emptied into that horrible bag'—the Radical party.

READ THIS.—The Hon. George T. Curtis, a bosom friend of Daniel Webster, gives the following account of the last words that great statesman ever uttered on the subject of politics. It will be remembered that Webster died just before the end of the Scott and Pierce campaign:

"Calling me to his bed side by my Christian name, he said: 'The Whig candidate will not be elected. You love your country, and you think its welfare involved in Whig success. This has been so; but let me warn you, as you love your country, to give no countenance to a sectional, geographical party. The Whigs after this election, will break up, and upon the ruins of our party, a sectional party will arise. The stability of the Union will hereafter depend upon the Democracy.'"

MONEY.—The Conference Committee of the two houses of Congress on the Funding bill have, according to the telegraph, agreed to provide for the issue of a thousand million of 30-year bonds at four per cent.; $300,000,000 of 15-year bonds at four and a half per cent.; $200,000,000 of 10-year bonds at five per cent. The section allowing gold deposits in the Treasury, limits the interest to two and a half per cent. All National Banks hereafter organized are required to take the new bonds.

IN THE U. S. LAND OFFICE for the Marysville Land District, Marysville, California.—The People of the United States to SEYMOUR H. KELSEY, Greeting: You are hereby summoned to appear before me, at the United States Land Office, in the City of Marysville, on MONDAY, the 8th day of August, 1870, at 10 o'clock A. M., to contest the claims of JOSIAH CROOK, averring your claim to the southeast quarter of Section twenty-nine (29) Township nine (9) north, Range one (1) east, Mount Diablo base and meridian, to be unjust and illegal; and then and there do you show cause, if any you can, why your said claim, on file in this office, should not be cancelled and the claim of Josiah Crook be recognized as just and valid. And upon your failure to appear on the day above named, the said Declaratory Statement No. 2220, on file in this office, will be declared cancelled.
Given under my hand this 9th day of July, 1870. [jy16-4] L. B. AYER, Register.

WISTAR'S BALSAM OF WILD CHERRY
The standard remedy for COUGHS, INFLUENZA, *Sore Throat, Whooping Cough, Croup, Liver Complaint, Bronchitis, Bleeding of the Lungs*, and every affection of the Throat, Lungs and Chest, including CONSUMPTION.
WISTAR'S BALSAM does not dry up a Cough, but loosens it, cleanses the Lungs and allays irritation, thus *removing the cause* of the complaint. None genuine unless signed I BUTTS. Prepared by SETH W. FOWLE & SON, Boston. Sold by REDDINGTON, HOSTETTER & CO., San Francisco, and by dealers generally. 1y16jy

This remedy does not simply *relieve* for a short time, but it produces perfect and permanent cures of the worst cases of Chronic Nasal Catarrh, and *I will pay* $500 *reward for a case that I cannot cure.* "Cold in the head" and Catarrhal Headache are cured with a few applications. If you have a discharge from the nose, offensive or otherwise, stopping up of the nose at times, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull, have pain or pressure in the head, you may rest assured that you have Catarrh. Thousands annually, without manifesting half of the above symptoms, terminate in Consumption and end in the grave. No disease is so common, more deceptive or less understood by physicians. I will send my pamphlet on Catarrh to any address free. Dr. Sage's Catarrh Remedy is now
SOLD BY MOST DRUGGISTS IN ALL PARTS OF THE WORLD.
Price fifty cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of *counterfeits* and *worthless imitations*. See that my *private Stamp*, which is a *positive guarantee of genuineness*, is upon the outside wrapper. Remember that this private stamp, issued by the United States Government expressly for stamping my medicines, has my portrait, name and address, and the words "U. S. Certificate of Genuineness" engraved upon it, and not be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage; I am the only man now living that has the knowledge and right to manufacture the *genuine* Dr. Sage's Catarrh Remedy, and I never travel to sell this medicine. PAIN KILLER
PROF. PERRY DAVIS & SON'S PROVIDENCE, R. I.
1840 1870
This Valuable Family Medicine has been widely and favorably known in our own and foreign countries, upwards of
THIRTY YEARS!
It has lost none of its good name by repeated trials, but continues to occupy a prominent position in every family medicine chest.
It is an External and Internal remedy. For Summer Complaint, or any other form of Bowel Diseases, in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of CHOLERA than any other known remedy, or the most skillful physician. In India, Africa and China, where this disease is more or less prevalent, the Pain Killer is considered by the natives as well as the European residents in those climates, *a sure remedy*; and while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in unskilful hands. Directions accompany each bottle. Price: 25 cts., 50 cts., and $1 per bottle. jy16-1m

Justice's Summons.

STATE OF CALIFORNIA, COUNTY OF YOLO, ss. In Justice's Court, Putah Township; E. L. Brown, Justice of the Peace. F. Multner, plaintiff, against George O'Donald, defendant.

The People of the State of California send greeting: GEORGE O'DONALD, you are hereby summoned to appear before me, at my office in Davisville, Township of Putah, in the County of Yolo, State of California, in an action brought against you by the above named plaintiff, and answer the complaint in said action on file in my office within fifteen days exclusive of the day of service on you of this summons. The said action is brought to recover judgment for the sum of twenty-seven dollars and fifty cents, alleged to be due and owing from you to the said plaintiff on book account, for goods, wares and merchandise delivered to you by plaintiff at your own request, as set forth in complaint on file. And you are hereby notified that if you fail to appear and answer said complaint as above required, the said plaintiff will take judgment for the amount demanded together with all costs of suit.

Given under my hand this sixth day of July, A. D. 1870. E. L. BROWN,
Justice of the Peace.

Ordered that the above Summons by published in THE YOLO DEMOCRAT once a week for two successive weeks. E. L. BROWN,

Probate Notice.

ESTATE OF THOMAS W. WOODLAND, DECEASED.

IN THE PROBATE COURT of the County of Yolo, California.—It appearing to the Court by the petition presented and filed by George F. Woodland, Administrator of the estate of Thomas W. Woodland, deceased, praying for an order to sell real estate, that it is necessary to sell the whole of the real estate to pay the allowances to Meta M. Woodland, minor heir, the debts outstanding against the deceased, and the debts, charges and expenses of administration; It is therefore ordered by the Court, that all persons interested in the said estate appear before the said Probate Court on the 18th day of July, A. D. 1870, at one o'clock P. M. of that day, at the Court Room of said Court, at Woodland, in the County of Yolo, to show cause why an order should not be granted to said Administrator to sell the whole of the real estate of said deceased. And that a copy of this order be published at least four successive weeks in the YOLO DEMOCRAT, a newspaper printed and published in said Yolo county.

Dated June 16, 1870. JAMES JOHNSON,
County Judge and ex-officio Judge of the Probate Court. je18-5t

Town and County Matters.

[CORRESPONDENCE for this department is invited from all parts of the County.]

A CLINCHER.—Quite an interesting and amusing scene occurred in the County Court yesterday morning. A defaulting juror, having been brought before his Honor, Judge Johnson, under attachment, was asked to show cause why he should not be punished for contempt in not obeying the summons of the Court? The juror's answers being unsatisfactory and couched in language not altogether polite and respectful, the Judge very properly fined him a certain sum, warning him at the same time that a repitition of such indiscretion would subject the offender to imprisonment in the County Jail; whereupon the juror showed signs of penitence and offered a more consistent excuse, which enlisted the sympathy of several bystanders who volunteered to offer a plea in his behalf. The Judge, however, was immovable until Joe Cook, an honest farmer, a laughing, jovial wag, realizing the situation of affairs, arose and addressed the Court as follows: "Mr. Judge, allow me to say one word. I have known this man a long time; he has raised a large family in Yolo County, and has earned his living by the sweat of his brow. He does not know much about law, but he can drive a six mule team better than your Honor or any other man. Therefore, your Honor, I hope you will screen him a little, for, as I said before, he has a hard road to travel over Jordan, as well as you and I, and as this is the first time he ever 'went back' on the orders of the Court, I want you to see if you can't forgive him, for Jordan is a hard road to travel." Thereupon the honest farmer sat down amid visible signs of suppressed applause, and the Judge smilingly ordered the Clerk to remit the fine. That speech was a clincher.

COUNTY COURT.—Hartman vs. King—This was a suit for fees, on appeal from Justices Court at Davisville, was tried by a jury who found verdict for plaintiff in $35 and costs of suit.

People vs. Brokaw—Tried by jury, found guilty of assault and battery—sentence to be pronounced Monday next.

People vs. Lasswell—Jury disagreed and prisoner was discharged.

People vs. Newcomb—No. 1—Trial on Thursday, found guilty, to receive sentence on Saturday next.

People vs. Newcomb—No. 2—Case continued till Friday next.

Bowers vs. Peterson—Ordered that mandamus be dismissed; judgment in favor of defendant for costs.

The case of the People vs. Webley comes up to-day; that of the People vs. Hawk is set for Saturday, July 23d.

THE ATTENTION OF OUR READERS is called to the advertisement of the Grover & Baker Sewing Machine Company, which appears in our columns to-day. The success of this admirable machine for family use, of their manufacture, has been unequaled upon this coast, owing entirely to their undeniable and very superior merit. They sew from two common spools; require no winding of thread; are very simple; easily understood; and perform every variety of sewing in the most perfect manner; besides executing most beautiful embroidery. Their new style shuttle machines for manufacturing combine the latest improvements, and for Tailors, Shoemakers, Saddlers, Glove makers, etc., they are unequaled.

A PLEASANT PARTY.—On the return of Mr. Jacob Korn and bride from their wedding tour, a few evenings since, a pleasant party of from forty to fifty of their friends greeted them at their residence, where the evening was spent in the most pleasant manner and "all went merry as a marriage bell." The bride and bridegroom were in excellent spirits, and all who were so fortunate as to be present enjoyed themselves highly. As the party broke up the most hearty good wishes were expressed for the continued and unalloyed happiness and prosperity of the newly married pair, the host and hostess.

DOMESTIC CLOTHES WASHER.—J. F. Greeley, agent for this new invention, is now in Woodland, and has exhibited his Washer to many of our citizens, several of whom have tried it and pronounce very decidedly in its favor. The machine is light and very simple. The washing is done by a brush passing over the clothes when laid upon a corrugated wash-board. It is very easily worked, and can be used in any ordinary washtub. A sample may be seen at the store of Gray & Wood. Price, $7.50. Mr. Greeley will remain in this vicinity a few days and take orders.

LIFE INSURANCE.—Col. J. G. Jeffress, the gentlemanly agent of the Equitable Life Insurance Company, which does more business than any other in that line, is now in town and will remain for a few days to give information upon the subject of Life Insurance and issue policies to all who want them. We hazard nothing in saying that the Equitable is one of the very best Life Insurance Companies in existence, and the representations of Col. Jeffress may be relied upon with implicit confidence.

INSTALLATION.—At a meeting of Woodland Lodge No. 111 I. O. F. F. held July 9th, 1870, District Deputy Grand Master N. Wyckoff installed the following officers for the ensuing term: H. J. Plomtaux, N. G; M. Myers, V. G; H. C. Grover, R. S; R. H. Newton, P. S; Henry Furry, Treasurer; B. B. Franklin, W; N. Wyckoff, C; D. M. Burns, R. S. N. G; L. Deitz, L. S. N. G; H. Spencer, R. S. V. G; Joseph B. Watson, L. S. V. G; Joseph Briggs, R. C. S; Robert Mosby, L. S. S; D. T. Seely, I. G; A. C. Ruggles, O. G.

ADDRESS R. V. PIERCE, M. D., 133 Seneca street, Buffalo, N. Y., and get a pamphlet on Catarrh free, or send sixty cents and get Dr. Sage's Catarrh Remedy. $500 reward is offered by the proprietor for a case of Catarrh in the head which he cannot cure. Sold by druggists. Look out for *counterfeits* and *worthless imitations*. The *genuine* has Dr. Pierce's private Government Stamp on it. Cut this out, as you may never see it again.

BUILDING LOTS.—If you want a building lot call on Nathan Elliott at once and procure one or as many as you want, for he sells cheap and on very reasonable terms; he has lots for sale of different sizes in the east, south and west part of Woodland. He cannot fail to suit those in want of lots.

BUILD BRICK HOUSES.—Be safe from fire and save insurance! Nathan Elliott has on hand and is manufacturing a very large, smooth and the best of all, the *strongest brick* that was ever made in Woodland; he has clay that makes a very superior brick; call and examine for yourselves, at his brick-yard, north-west part of Woodland.

GRAIN SHIPMENTS.—The shipments of grain from Woodland during the past week have been: To Vallejo, 1,120 tons of wheat; to Sacramento, 70 tons of wheat, barley and flour.

MOONLIGHT EXCURSION.—A grand moonlight excursion to Davisville, under the auspices of the Odd Fellows of Sacramento, came off on Thursday evening last.

WHEAT MARKET.—F. S. Freeman furnishes us, as the outside figure for the wheat market on Friday $1.53½ per 100 lbs.

FOR SALE.—Mrs. S. J. Price advertises her Millinery establishment for sale, as will be seen by our advertising columns.

BORN.

At Knight's Landing, July 5th, to the wife of W. S. Huston, a son.

DRUNKENNESS.—There have been more drunkards on our streets within the past two weeks than we have ever before observed in this place in a similar period. Several fights have resulted and a number of arrests have been made in consequence. On Sunday last, just as the congregation was leaving the Christian Church a fight occurred in front of the Capital Hotel. A few days ago F. C. Ruggles, one of our ablest citizens had brought his threshing machine to town for repairs, when some drunken fellow amused himself by smashing some of the lighter portions of the machine. Being ordered to desist, he became pugilistic, and rushed at Mr. R. with terrible threats, and would have assaulted him but that he defended himself with a heavy stick and laid his assailant at his feet. The fellow now swore vengeance, and started off and procured a large knife with which he returned to the scene. By this time quite a number of persons had gathered, however, and the desperado dared not carry out his threats. From remarks we heard dropped soon after, it was lucky for him that he did not attempt to use the weapon, for, said one, "there were plenty of trees, ropes and willing hands in that crowd." Of course the fellow brought up in jail to await judicial investigation.

THEATRICAL.—Owing to the non-arrival of some of the principal Actors, till the evening train, the opening entertainment at Washington Hall was postponed till last evening. We went to press too early to speak of the performance in detail, but will merely say it was excellent in every particular, far surpassing our expectations. An advertisement announces that the Troupe will perform again this (Saturday) evening, when an excellent bill will be presented. Go and enjoy a first-class performance at Washington Hall to-night.

TEMPERATURE FOR THE WEEK.—Ranges of the Thermometer for the week ending July 15th, 1870:

WILD CHERRY BALSAM.—The memory of Dr. Wistar is embalmed in the hearts of thousands whom his *Balsam of Wild Cherry* has cured of coughs, colds, consumption, or some other form of pulmonary disease.

GOING UP.—The Odd Fellows' Hall begins to assume proportions. It looms up grandly, being the third story of the new brick next to the Bank. Appearances indicate that it will be finished in a few weeks.

THE ATTACK ON GUYMAS BY THE STEAMER "FORWARD."—On the 6th of June, while the United States Steamer Mohican was lying at Mazatlan, a courier from Guymas brought news from the American Consul at that port that on the 28th and 29th of May the Steamer "Forward" had there landed armed men, under the command of Forino Viscayno, who seized the Government authorities, took possession of the Custom-house, sacked the warehouse of Ortiz y Hermanos and others, levied forced loans at the point of the bayonet, took coal belonging to the N. P. T. Company, and captured five thousand muskets, which had before been confiscated by the Mexican Government from D. Placido Vega.

The letter from Guymas further stated that the Forward was under San Salvadoran colors, and was acting under the orders of D. Placido Vega, now raising forces and preparing for an attack upon Mazatlan; and that, in addition to the acts of piracy enumerated above, the "Forward" had taken possession of two coasting vessels, the San Pablo and Colima, which she filled with plunder taken from the mercantile houses, and took in tow on the evening of the 29th of May, anchoring that night at the Island of Pajaros, and the next day putting to sea.

Commander Low held a consultation with Governor Rubi, of this State, and afterwards with the Consuls and heads of mercantile houses, and, becoming convinced of the report, determined immediately to set out in pursuit of the Forward, and ultimately captured and burned her. The Mohican's boats were fired upon, and several officers and men were killed.

It is asserted that the steamer Forward was a pirate. She was cruising under the colors of San Salvador, without a commission from that Government, and made a belligerent attack upon a city in a State which is at peace with the nation whose flag she flew, and there seized money, goods, arms, and one of the inhabitants. Of course her crew and officers are liable to be hung.

NORTHERN DISTRICT FAIR.—The Marysville *Standard* of July 12th says: The Board of Trustees met last evening and decided to at once proceed to put the track in repair and to do the necessary fitting up of the Pavilion and Cattle Grounds. The premium list will be a liberal one, and will be issued in a few days. The purses, both for the State at large and the District, will be sufficient to call out the best horses in the State. Assurances are already given that the celebrated running stallions, "Norfolk" and "Lodi," and the trotting stallion "Black Bird" will be upon the grounds. There will also be a premium offered for the best Norfolk and Lodi colts. It is designed to have the ladies' tournament on the grandest scale, for which several superb prizes will be offered.

THE SARSAPARILLA DIGGERS OF YUCATAN.—This singular set of people are descended from the ancient Aztecs of Southern Mexico, and still retain some of the peculiarities which Stephens and Prescott gave of their ancestors. Dr. J. C. Ayer & Co. employ a small army of them in digging Sarsaparilla root. Provided with narrow spades, a coil of rope, and a bag of water, they are ready for the forest where the wild banana furnishes them with food, and thick-leaved trees their only shelter. Few of those who find themselves rejuvenated by this product, know how much they are indebted to the toil of those humble laborers, who dig health for thousands of Doctor Ayer's patrons, while they sometimes lose their own.—*Boston Commercial.*

LAUDIN'S PACIFIC COMMERCIAL COLLEGE.—We have received a copy of a paper with the above title, printed in Sacramento in the interest of the institution whose name it bears. The Pacific Business College is just the institution to fit young men for the practical business of life. We notice that our friend P. A. Espina is Superintendent of the Penmanship department, than whom a better or more competent teacher could not have been selected.

MAMMOTH BEET.—The Los Angeles *Star* of the 1st inst says: We noticed yesterday, a beet six feet long and four feet in circumference at about its centre. Another and similar specimen somewhat resembling a large sized alligator, weighing ninety pounds, was on exhibition. Both these beets were raised by W. F. Farris, at Los Nietos.

A WORD FOR THE CAL. P. R. R.—The immense resourses of the Chico country under the rules of the Navigation Company and the subsidized Central Pacific Railroad, will remain undeveloped. They require the incentive an extension of the Vallejo road would give them. So says the *Butte Record.*

Senator Casserly on the Chinese Question.

Senator Casserly, in his Fourth of July Oration in New York City, made the following allusion to the Chinese question:

But there is another question which has lately come up—a very important question. At first it was no bigger than a man's hand; but already it has spread itself all over the horizon, with its threatening and portentous shadow. I refer to the question of the introduction into the country of the debased and degraded Asiatics as laborers, to the exclusion of the white labor of the country. Gentlemen, I am one of those who believe that no society can rest upon a sound organization unless it rests upon a sound and just organization of labor, or which denies to the workingman honest labor; and you deny that to him when you cut his wages below the point of supplying his decent wants, or when you undertake to bring into competition with him the debased, degraded laborer of Asia. I know what is said about the importance of capital to labor; there is no neccessary antagonism between them. But I mean to say this, and I say it deliberately, on a subject of which I have thought much, that I know of no right under the Government so clear as the right of the workingman to earn a subsistence for himself and family without undue interference. (Applause.) And when the capital of a country for any purposes of its own undertakes to divorce itself from the labor of a country, it has put itself out of the pale of my sympathy and my respect. This whole movement is a sordid, unchristian, and I had almost said devilish, purpose on the part of capital to add to its swollen profits out of the hard labor of the workingman of the United States. They have got a tariff, gentlemen, and internal system, every line of which is dripping with the blood of the laboring poor of the United States. They have got a system that has built up corporate monopolies rolling in wealth; at no time in the history of the world has capital, certainly at no time in the history of the United States have the profits of capital been so enormous as at this time. In the face of the outcry of labor, in the face of Christianity, in the face of civilization, they propose to pour in upon this land a horde of Pagan, vicious, degraded Asiatics to take the bread out of the mouths of the laborers of this country and send them to the poor-house or perhaps to the penitentiary, and the others to a life of degradation and shame. (Applause.) It shall not be. (Great applause.) It is no party question. It is too high for party. It lies at the foundation of society. It lies at the foundation of our Government. We can have no free Government, gentlemen, without an intelligent, independent, free working class. It is in no spirit of flattery or delusion that I declare I look to the support of the workingmen for the redemption of the liberties of the country. I don't look to your bankers and your capitalists. I believe there are good men among them; but I believe the great majority are ready to submit to any sort of despotism to-morrow, if it will add five per cent. per annum to their interest. I look to you, men that depend on your daily labor for your daily support; I look to you, whose strong arm stood between your country in the great peril of the civil war; we look to you, to whom we owe it that we came out of that great contest victorious and not vanquished. You are standing forward in defense of the great principles of American Government—the highest, the grandest, the most elevated that the earth has ever seen. I trust there is no difficulty in understanding my position on this question. I want you all to understand it. I am related to the great political party here, and I suppose I may be thought to be somewhat concerned in politics. But this is no time for politicians to fight for you. You have to fight this question for yourselves—(applause)—if you don't you will lose it. I think I know how the great heart of the party of human rights beats for you on this subject. I think I know that the old Democratic party will stick to the cause of the workingmen; if I am enabled to judge what she will do in the future by what she has done in the past, she will take that course whether at Washington or at the corporate board. If I know myself, the Democratic party will take that course, or I cease to act with it. But I have no fears on that subject; I don't doubt the Democratic party at all on this question. No matter what pretences are put forward, I say there is but one party in this country to-day which is sufficiently free from the toils of capitalists to enable it to stand by the laborer in the great contest which is coming. You have only heard the sound of the first ripple of this mighty sea which is coming upon you. We in California have seen it face to face. I have always recommended fair treatment to any emigrant who chose to come to this country, but I have always spoken in the strongest terms against the supplanting of honest labor by the degraded, debased, vicious labor of Asia. Have we not before us, in the coming time, a great cause and a great contest. If to-morrow all the men who are opposed to Radical misrule in this country would be united in one party, there is no doubt that Radicalism is doomed. Now, there are undoubtedly three or four plain principles upon which they are united and ready to act. Shall we not allow them to unite and to act with us? Do we not all feel that on the question of an honest administration of the Government, reduction of taxes, a reduced tariff, the labor of the country can all act together? Why, we can all act as one man. Shall we not so act? Let us so act. And while we have these principles, let us not forget that the Democratic party are pledged to observe the inviolability, the continuity, the integrity of the Union—(applause)—and the preservation of all the rights of the States unimpaired. (Applause.) This is a cause highly fitted to suceeed. I wish no greater happiness in my own time than to see it triumphant. I wish no greater honor than to see this old Democratic party triumphant throughout the Union. I cannot think of any wish better fitted to enhance the glory of the country. (Great applause.)

MARRIED.

At the residence of the bride's father, in Woodland, July 12th, 1870, by Rev. W. C. Damon, Messenger E. Gates, of Sacramento, to Mary Jennie Messenger, of Woodland.

We see by the Sacramento papers that the honey-moon is being spent in a trip overland and a tour through the Eastern States.

In San Francisco, July 3d, 1870, by Rev. Mr. Frankel, Jacob Korn, of Woodland, to Miss Bina Wortheimer, of San Francisco.

A fine large cake and a demijohn of excellent wine accompanied the above notice, and while feasting upon the good things the printers drank many toasts to the happy couple, among them the following:

The Bride, Mrs. Jacob Korn—God bless her. Mad hers be a honey-moon of unalloyed pleasure; her life one of happiness intensified; her ways lead through green pastures decked with choicest flowers; all her paths the paths of joy, pleasantness, peace.

The Bridegroom, Mr. Jacob Korn—He has read the scripural injunction to "multiply and replenish," and like a sensible man, determined to obey it. His Korn is a good kind; may he have a bountiful yield, so that there will be much more Korn in the land.

WOOLSEY'S CELEBRATED

UNIVERSAL WASHER.

In introducing Woolsey's Celebrated UNIVERSAL WASHER, I desire to say that it has been used in the Atlantic States with greater success than any other machine ever introduced, and I challenge any and all others to a test of quality. It takes less wood and water, less soap and labor, (the water is heated by a stove attached), a child ten years old can operate it, and it does not wear out clothes as other machines, as it neither rubs nor pounds the clothes. It will wash the finest fabrics and the largest quilt or blanket. If it fails in anything I claim for it, the money will be refunded if desired.

NEWELL'S PULMONARY SYRUP.

Believing that every man should be held personally responsible for whatever he offers to the public as an antidote for any existing evil, and that no honest man can, for the sake of gain, offer as a remedy that which may prove an injury, we shall say no more than we believe to be strictly true, and easily proved, in relation to the merits of

Newell's Pulmonary Syrup!

We have known it for many years as a valuable remedy in all Pulmonary Complaints. It has been given to a great number of persons, old and young, male and female, and it can be truly said that rarely, if ever, was known a single instance in which it has not effected a speedy cure of the most violent cold or long-seated cough; and, in case of Asthma, whooping-cough, sore throat, or any affection of the throat or lungs, we have yet to hear of the first instance in which it has not afforded entire satisfaction. We do not pretend to say that

Newell's Pulmonary Syrup

Is a remedy for "all the ills that flesh is heir to," but we do say that, in ninety-nine cases out of a hundred, it has been found to be a safe, pleasant, and sovereign remedy for the most violent cold, long-neglected cough, sore throat, asthma, whooping-cough, or any affection of the throat or lungs arising, as almost all such complaints do, from what is at first considered nothing but a "slight cold"—the final consequences of which need not be pointed out. Prominent, however, among the ills thus engendered, is that of Consumption, for which it is said there is no remedy, and perhaps there is not. But if

Newell's Pulmonary Syrup,

Which we so strongly recommend, be a remedy for such complaints as we have enumerated, what effect will it have upon that scourge of the human race, CONSUMPTION? We answer, it will be to afford its victims immediate relief! It will check the ever-accompanying cough; this done, refreshing sleep is sure to follow, and, in its train, increase of strength, a brighter eye, a more cheerful countenance—and, why not a restoration to health? CURE YOUR COLD while it is yet what you consider but a slight one, and you will have less occasion to seek a remedy for any of the countless ills so sure to follow from it when too long neglected. Cure it in your children, instead of allowing them to retire to their beds night after night with a SLIGHT COLD, from which almost every family has had experience; they too often rise with headache, sore throat, or fever.

A kind Providence has placed at the disposal of His intelligent creatures, all the remedies requisite for the relief of such diseases as He permits to afflict mankind. Among the gravest in this category are those of the CHEST and LUNGS. A thorough and patient investigation into the character and treatment of these affections, has resulted in the selection and approval, by the more intelligent of the present day, of

Newell's Pulmonary Syrup,

The use of which is synonymous with speedy relief and health. Consumptives, try it! For sale by all Druggists.

Newell's Pulmonary Syrup,

Should be resorted to on the slightest indication of a cough, cold or asthma.

FLORIDA has a youth who is a snake charmer. He can take snakes of any kind, play with the rattlesnake's rattles, open its mouth and handle its fangs; takes scorpions in his bosom; handles centipedes, wasps, bees, hornets, and is never bitten or stung. He can go into the woods and call all the snakes in the vicinity to his presence, and have them come and nestle in his lap or bosom. We are glad that boy isn't ours; he would forever keep us in mortal dread.

A YOUNG man, who carried a collection plate in service, before starting took from his pocket a five cent piece, as he supposed, put it on the plate, and then passed it round the congregation, which included many young girls. The girls, as they looked at the plate, all seemed astonished and amused, and the young man, taking a glance at the plate, found that, instead of a nickel five-cent piece, he put a conversation-lozenge on the plate, with the words, "Will you marry me?" in flaming red letters, staring everybody right in the face.

The Lord's Prayer.

When the elder Booth was residing in Baltimore, a pious, urbane old gentleman of that city, hearing of his wonderful possession of elocution, one day invited him to dinner, although deprecting the stage and all theatrical performances. A large company sat down at the table, and on returning to the drawing room, one of them asked Booth, as a special favor to them all, to repeat the Lord's Prayer. He signified his willingness to gratify them, and all eyes were fixed upon him. He slowly and reverently arose from his chair, trembling with the burden of two great conceptions. He had to realize the character, attributes and presence of the Almighty Being he was to address. He was to transform himself into a poor, sinning, stumbling, benighted, needy supplicant, offering homage, asking bread, pardon, light and guidance. Says one of the company who was present, "It was wonderful to watch the play of emotions that convulsed his countenance. He became deathly pale, and his eyes turned trembling upwards. As yet he had not spoken. The silence could be felt; it had become absolutely painful, until at last the spell was broken as if by an electric shock, as his rich toned voice sylabled forth, 'Our Father, which art in Heaven,' etc., with a pathos and fervid solemnity which thrilled all hearts. He finished; the silence continued; not a voice was heard nor a muscle moved in his rapt audience, until from a remote corner of the room, a subdued sob was heard, and the old gentleman (the host) stepped forward with streaming eyes and tottering frame, and seized Booth by the hand. 'Sir,' said he in broken accents, 'you have afforded me a pleasure for which my whole future life will feel grateful. I am an old man, and every day, from boyhood to the present time I have repeated the Lord's Prayer; but I never heard it before, never!' 'You are right,' replied Booth, 'to read that Prayer as it should be read caused me the severest study for thirty years, and I am far from satisfied with my rendering of the wonderful production. Hardly one person in ten thousand comprehends how much beauty, tenderness and grandeur can be condensed in a space so simple. That Prayer itself, sufficiently illustrates the truth of the Bible, and stamps upon it the seal of solemnity.'"

SOUTH AMERICAN BRIGANDAGE.—A horrible story of brigandage reaches us from Chili. Lagoberon, a notorious bandit captain, was so closely pursued by a body of troops recently, that he was compelled to desert his band of brother cut-throats, who had been a terror of the whole country round, and take refuge in a cavern situated near the summit of one of the lofty mountains of the Sierra Profunda. In this cavern he had concealed a female captive, whose husband he had robbed and slain. The soldiers made several ineffectual attempts to reach the abode of the culprit. Lagoberon, a man of gigantic stature and herculean strength, succeeded in beating them off by rolling heavy rocks down upon them whenever they approached. The officer in command of the troops resolved at first to starve the bandit out, but, after two days' blockade, grew weary of so tedious an expedient, improvised an escalade of the chieftain's stronghold, and succeeded in capturing him. To their horror, upon entering the cavern, they found the poor woman in a dying condition, Lagoberon having cut off one of the breasts of his unfortunate captive and eaten it. The inhuman butcher was taken to Talca, where he was promptly tried and condemned to die by the garote. He was speedily conducted to the scaffold, and while the executioner was engaged in adjusting his *toilette de mort*, the convict drew a whistle which he had concealed in his pocket, and blew it sharply; whereupon about sixty of his followers, who had introduced themselves among the crowd, surrounded the scaffold, rushed upon the gendarmes, and massacred them ere they could offer any resistance. They then freed their chief and garroted his would be executioner, after which they escaped, almost unscathed, to the mountains, facilitating their flight by seizing the horses of the murdered gendarmes. They also carried off several women from the throng gathered to witness the execution.

HINTON ROWMAN HELPER denies that he is a candidate for Congress from North Carolina, and says he would not esteem it an honor to be sent to Congress or elsewhere by such voters as have delighted to elect or re-elect to office individuals like Whittemore and Dewesse.

ADDRESS

To the Nervous & Debilitated,

Whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable: If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick scum rise to the top? Or is there a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting or rushing of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant, the bloom on your cheek as bright? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights—your back weak, your knees weak, and but little appetite—and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic persevering successful business men are always those whose generative organs are perfect health? Such men never complain of being melancholy, or nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, rom badly cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder and Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon the prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 years, prepared by H. T. HELMBOLD, Druggist, 594 Broadway, New York, and 104 South Tenth street, Philadelphia, Pennsylvania. PRICE—$1.25 per bottle, or 6 bottles for $6,50, delivered to any address. Sold by all Druggists everywhere.

TWO GRAND PRIZES,

Grand Cross of the Legion of Honor,

To ELIAS HOWE, JR., as the inventor; and Gold Medal for the best Sewing Machine!

The Highest Honors Ever Conferred for Sewing Machines.

This Machine has long been regarded as the standard of excellence, and has become celebrated the world over. The work done by these Machines is unsurpassed—sewing the thinnest muslin or the thickest cloth, with equal facility; and requiring no extra adjusting for uneven thickness or passing over seams: it turns its own hem as it sews, sewing a seam stronger than the fabric itself. To see it hem, fell, tuck, braid, cord, quilt and gather, it seems more like a thing of life than a machine moved by the will of the operator. It is capable of doing every description of sewing that is required in a family; and also for seamstresses and dressmakers it will be found invaluable. They seldom, or never give any trouble in operating, and in a word, are the most satisfactory Sewing Machines in use.

Notwithstanding their great superiority, they are sold at prices as low as other first-class machines.

A Medallion likeness of Mr. Howe is embedded in the plates of every Howe Machine, without which none are genuine. Every purchaser of a Sewing Machine should inquire for ELIAS HOWE, JR.'s SEWING MACHINE, and if they are not sold in their vicinity, address the General Agency for Illustrated Circulars, etc., and do not purchase until you have thoroughly investigated these renowned machines.

Ayer's Cherry Pectoral,

—FOR—

Diseases of the Throat & Lungs,

Such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma and Consumption.

Probably never before in the whole history of medicine has anything won so widely and so deeply upon the confidence of mankind as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled consumption is thought incurable, still great numbers of cases where the disease seemed settled have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat that the most obstinate yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and in all the affections which arise from malarious, or miasmatic poisons.

As its name implies, it does *cure*, and does not fail. Containing neither arsenic, quinine, bismuth, zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts are litterally beyond account, and we believe without a parallel in the history of ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in or travelling through miasmatic localities, will be protected by taking the Ague Cure daily.

For Liver Complaints, arising from torpidity of the liver, it is an excellent remedy, stimulating the liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

NEW WEED

SEWING MACHINES!

"The Last and Best!"

The following is the fac-simile of the Medal awarded to the WEED Sewing Machines at the late Paris Exposition:

The Weed Sewing Machine Company have now at last completed their Three Standard styles of

Weed Sewing Machines.

First—Their new "Family Favorite." Second—Their new, light and noiseless Manufacturers' Sewing Machine. Thirdly—Their immense heavy "Manufacturers' Favorite." The three together combining the advantages of all others up to the present time, being the BEST made and doing the best work—has received throughout Europe, the States, and on this coast, the First and Highest Premium at each and every public Fair since 1867 (the year it was completed,) where any premium at all has been given or where its strong points have been really exhibited.

There is a difference!—All the Premiums that the WEED Sewing Machine Company claim, from the first and Highest Premium at the Great World's Fair at Paris, in 1867, up to the present time, (see small circulars), are each and every one genuine awards, or we will forfeit $500 for each and every false claim! Other Sewing Machines have had their Premiums, but how many of them in the last two years?

There is a difference! Says the *True Chronicle*: "This magnificent Sewing Machine comes forward in good time and strikes exactly the right mark." Also, the editor of the *Independent* says: "Such a Sewing Machine as the Weed—the New F. F.—we have never seen." Thus the New Weed Sewing Machine is the simplest and strongest, the last, and as we believe in modern improvement we may add the BEST Sewing Machine made as yet. It is the best Family Sewing Machine; it is the best Boot, Tailor, Saddler's Sewing Machine; it is the most successful Sewing Machine! for already its name is a household word both in Europe and America, and is rapidly taking the place of all others. Its immense central manufactory is in Hartford, Connecticut. Agents in all the principal cities in the world.

Price, from $65 to $500.

AYER'S HAIR VIGOR,

For Restoring Gray Hair to its Natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where follicles are destroyed, or the glands atrophied and destroyed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hair Dressing,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by DR. J. AYER & CO., Practical and Analytical Chemists, Lowell, Massachusetts. Price, $1.

☞ Sold by all Druggists and dealers in Medicines everywhere. Crane & Bingham, San Francisco, R. H. McDonald & Co., Sacramento, wholesale agents. au14-1y

FLORENCE

SEWING MACHINES!

The FLORENCE has now been used on the Pacific Coast seven years; its merits are known and its reputation established.

It is here in daily use in more than six thousand homes, and is effectually speaking for itself like

"Gold Tried in the Fire!"

Competition and opposition—fair and unfair, have not consumed or injured it. It stands the practical test upon a greater range of work than any other Family Sewing Machine in use.

If there is a Florence Machine within one thousand miles of San Francisco not giving entire satisfaction, if informed of it, I will attend to it promptly, without expense of any kind to the owner.

Shoemakers, Tailors and Glove makers are invited to examine our New Florence Manufacturing Machine.

WHEELER & WILSON.

THE GREAT TRIAL OF

SEWING MACHINES!

THE GRANDEST IN THE WORLD!

The Judges, the whole world; and the trial, fifteen years duration.

Practical Use the Test!

THE UNIVERSAL VERDICT:

"The Wheeler & Wilson Sewing Machine the Champion!"

As a Holiday Present, nothing would be more appreciated than one of these Machines.

These unequalled Machines do all the different kinds of work required to be done in a family, and make all the different kinds of Stitches, without the complications of the other Machines.

All persons will please examine the Wheeler & Wilson Sewing Machine before purchasing any other.

The Wheeler & Wilson as is well known, has won at nearly every trial in which it has competed, the highest award of merit. The representatives of other machines, ever confident, have entered the lists, time and again, only to be defeated; and finding it impossible to compete fairly, have endeavored to decry the value of Premiums. They are not slow, however, to boast of the few they have received. But in the grand trial, daily see throughout the world, where only true merit finds favor, and superiority wins the race, the Wheeler & Wilson Sewing Machine stands triumphantly the champion by the verdict of the people.

These Machines are adapted to every Variety of Sewing!

From the lightest muslins to the heaviest cloths. They work equally well upon Silk, Linen, Woolen or Cotton goods, with Silk, Linen or Cotton thread: Seaming, Quilting, Gathering, Hemming, Felling, Cording, Tucking, Braiding, Embroidering and making Button Holes, with the greatest facility.

If it be inconvenient for the purchaser to visit the salesroom, the order may be forwarded to the office, and it will be as fatally filled as if the selection had been made personally.

Full instructions, recently compiled, and giving full information upon every point in detail, accompany each Machine, and enable the most inexperienced to operate without difficulty.

Our interest in the successful working of Machines is not second to that of the purchaser, and we esteem it a privilege to aid, by correspondence or otherwise, any person requiring it.

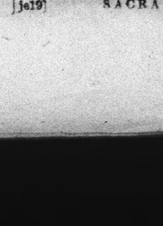
THE ELLIPTIC

SEWING MACHINES,

Warranted the Best!



The Elliptic Sewing Machines are manufactured and warranted by the Wheeler & Wilson Sewing Machine Company. The late and important improvements enable us to guarantee to every purchaser that the Elliptic Machine will do more work, better work, and a greater variety of work than any other Sewing Machine now in use. The economy of the Elliptic Machine in a family is almost incredible; with one, a good operator can do the work of twelve hands. By it, the making of garments is reduced from a question of hours to one of minutes, as the following table will show:

(It is not to be understood that the following table is the time to make garments, but to do the stitching only.)
